

Technical Rider

Set-up

- drums | guitar | bass | tenor sax/alto sax/clarinet

Microphones

- 3 x vocal mics

Monitors

- 1 x monitor for drummer, 3 x monitors for the front of the stage

Drums

- kick, snare, side snare, rack tom, floor tom, hi-hat, ride x2, crash x2
- Roland SPD-SX sample trigger
- **Can you provide shells and stands? Please let us know how many stands you can provide.**
- We'll bring cymbals, snare, stool and kick pedal.
- Sometimes we'll bring less (e. g. only one snare, only one ride, no SPD-SX).

- Egnater Tweaker 112 - 15 W tube guitar amp
- Darkglass Microtubes 500 - 500 W bass head
- **Can you provide a bass cabs (min 4 Ohm)?**

Notes

This technical rider is our preferred set-up which we created with our producer and we know that not every venue can fulfil our requirements, so please choose the closest possible alternative.

Own sound engineer

When available, our sound engineer Elk will come to our shows to produce our desired sound and trigger effects. If this is the case we would like the present sound engineer to act as system technician. We will bring a sound profile that we've created on a Behringer X32. **Please let us know which mixing desk you are using.**
